

MEET OUR PERINATAL NURSE CONSULTANTS

Leanne MacKeen

Leanne has been with RCP since 2016. She is deeply invested in and passionate about her role in supporting NS health care providers to enhance clinical practice to improve outcomes for the perinatal and newborn population.

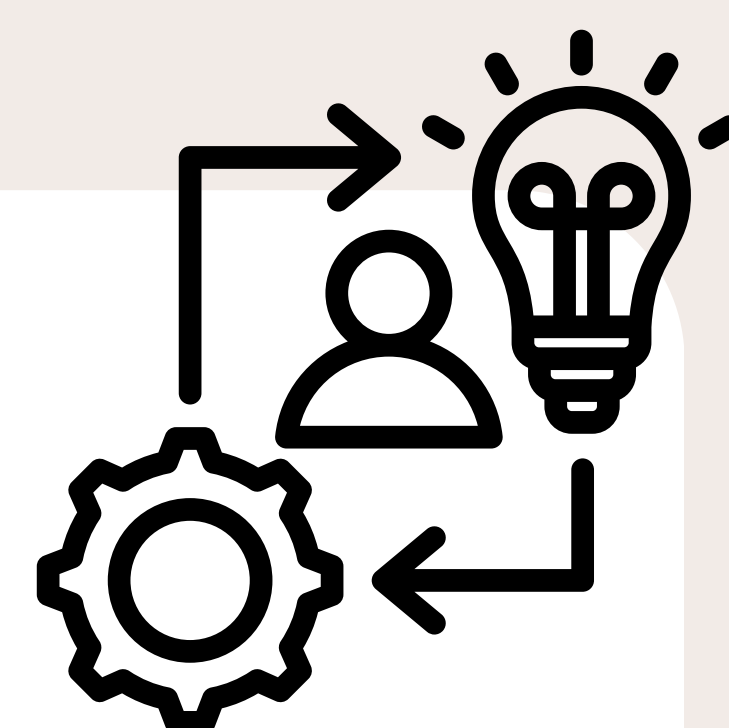

Heather Ezurike

Heather has been with RCP since 2016. She brings a passion for health equity and quality care to her role supporting perinatal care providers in Nova Scotia provide the best care to pregnant persons in our province.

Sarah Maguire

Sarah joined RCP in February 2024, bringing valuable experiences from both the IWK and NSH. Her strong connections with perinatal care providers will help support collaborative initiatives between both health authorities to ensure high-quality, accessible perinatal and newborn care across the entire province.

Maddie Gallant

Maddie has been with RCP since June 2022. Her passion is developing clinical guidelines and thoughtful implementation strategies to improve translation of evidence into practice.

NATIONAL & PROVINCIAL COLLABORATIONS

National

- Canadian Perinatal Programs Coalition
- Maternal Mortality

Provincial

- Health Services Planning
- Policy Development
- OPOR

QUALITY ASSESSMENT REVIEWS

Also known as PCRs. The clinical team at RCP, informed by data from the NSAPD, visit all facilities in Nova Scotia to review care and discuss evidence based processes and practices.

CLINICAL RESOURCES

RCP utilizes collaborative and integrative processes to develop resources in response to emerging health needs across the province. This process is informed by data from the NSAPD.

- RCP also contributes and leads the development of documentation tools to guide perinatal healthcare in Nova Scotia

PERINATAL ORIENTATION

Advanced interactive courses informed by emerging knowledge and evidence about self-directing eLearning.

PRACTICE SUPPORT

- Aggregate Data
- Practice Questions
- Facilitating Follow-up

INTER-PROFESSIONAL EDUCATION & PROFESSIONAL DEVELOPMENT

Educational support for all healthcare providers in perinatal and newborn care across the province. Including: webinars, orientation eLearning courses, emergency department education, and skilled labor support workshops.

RCP provides provincial leadership for National interdisciplinary education programs: Fetal Health Surveillance, Neonatal Resuscitation Program & Acute Care of the at-Risk Newborn.
